**Automatic robot palletizer  
with stretch wrapper**

## Automatic robot palletizer with stretch wrapper

**FROM 12 TO 24 UNITS PER MINUTE\***

\*Up to 12 cycles per minute (1 or 2 units per pick). Depending on product type, stacking pattern, and machine configuration.

### Design quality

The RPW palletizes and wraps loose bundles for more stability. It secures the pallet every two layers, helping stabilize the loads and create an optimal pallet each time.

### Performance

The RPW combines a robotic palletizing cell and a turntable stretch wrapper. While the pallet is being wrapped, the robot continues palletizing units on a second station.

### Versatility

With the help of the robot, the RPW gives you the capability to handle more than one SKU with multiline handling possibilities.

### Container types

Bundles

Cases

**The RPW Series combines two essential end-of-line technologies: a flexible robotic palletizing cell and a turntable stretch wrapper.**

**This pre-engineered solution is perfect for handling various types of unstable loads while minimizing floor space.**

REQUEST A QUOTE >

**Production rate**

15' L x 18' to 24' W

**Full pallet load**

**Height:** Up to 80" with 40"x48" pallet

**Electrical power requirements**

460 V / 3 Ph / 60 Hz b  
(other voltages available)

**Ambient temperature**

40°F to 95°F (5°C to 35°C)

**Operating pressure**

80 psi (6 bar)

**Robotic safety standards**

ISO 10218 (2011), Robots and robotic devices—Safety requirements for industrial robots (Supersedes RIA 1.5.06)

**Features**

Fanuc robot equipped with vacuum end-of-arm tool

---

Turntable stretch wrapper

---

Powered infeed conveyor

---

Light curtains and safety fences

---

Small footprint

---

Low cost

---

7" color touch screen with user-friendly operation

---

Quick and simple installation and start-up

---

Quick changeover of palletizing patterns via stored recipes

---

**Options**

Upgrade to M-410iB/140H FANUC robot for higher loads and/or rates.

---

Upgrade to a clamp or finger gripper for bottom support

---

Second zone on vacuum gripper for double pick to increase rates

---

Slip/tier/top sheet handling by robot

---

Empty pallet handling by robot

---

Pallet accumulation conveyor

# Lifetime

## Client Solutions

**Premier Tech Client Solutions** take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
