system master controller**

Integrated Packer 2.0

Valve bag packaging system master controller

Performance

Single point interface for the operator with great simplicity. Intuitive and user-friendly controller. Easy to use with a quick training.

Usability

Single point interface for the operator with great simplicity. Intuitive and user-friendly controller, easy to use with a quick training.

Cost efficiency

The system level diagnostic enables you to have all the performance data of the overall packaging system, giving you everything required to maximise your production.

We offer a new cutting edge and innovative controlled system equipped with an Allen Bradley PLC.

Packer types

Impeller, Air

Bag types

Valve bags
with or without
seals

Application

Robots or traditionnal (for automatic applications only)

REQUEST A QUOTE >

Features

One touch Product Load Change-over

AB PLC/ 15" HMI

24VDC control voltage

Message screens/alarms

Monitor weights

Single Point Manual jog functions

SpeedAC GWC Scale Controller

Ethernet and Point IO

Quick ease of install

One touch traffic control calibration

Up to four packers of the same type; Air, Impeller (CleanPak)

Application by robots or conventional applicators (Automatic application only)

Data Collection

Bag Throughput:

Bag Rejects

Production Rates, BPM (live value) Alarm Logs

Packer Data History

Options

Auto chair height adjustment

Auto conveyor height adjustment

Interfacing with PTC palletizing

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
