

CHRONOS • OMR-1130-N

Automatic bagging machine

Automatic bagging machine

UP TO 20 BPM

Versatility

Can handle porous polywoven bags and all other types.

Performance

Closed or misplaced bag on the spout as well as multiple bag picking are rejected automatically outside of the machine without stopping the bagging process.

Reliability

Quick to configure, consistent and durable equipment, designed to reduce the loss of time on the production line.

Designed to optimize production despite the irregular properties of porous polywoven bags

Bulk materials

Granular

Coarse Aggregate

Fibrous

Pellet

Flake

Bag types

Pillow-Type

Gusseted

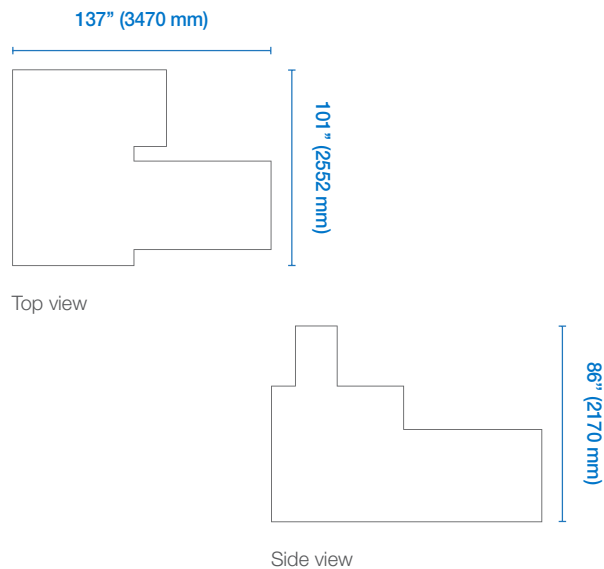

Gusseted flat bottom

Bag materials

For all types of bag

REQUEST A QUOTE

Typical Equipment Dimensions

Bag specifications

Width: 305 mm to 660 mm (12" to 26"),
610 mm (24") when tabs are present
Length: 610 mm to 1118 mm (24" to 44")

Bag weight

Up to 50 kg (110 lb)

Bag closing type

Compatible with any external in-line closer

Electrical requirements

460 V / 3 Ph / 60Hz

Control system

Allen Bradley CompactLogix

Standard HMI

Allen Bradley PanelView Plus 700 (7") color
touch screen

Pneumatic components

SMC Pneumatics

Features

Effectiveness and optimum throughput thanks
to reliable automatic rejection of defective bags

Small footprint optimizes floor space

Compact design allows shipping in one block
and quick installation

FANUC robot assures reliability and precision

All parts in direct contact with the product are made
of polished 304 stainless steel

Detection system checks bag placement
on spout to avoid spillage

Intelligent thickness detector rejects
multiple bag picks.

Tilt spout avoids conflict with bag placer and robot,
and increases achievable speed.

All motors in bagger are either VFD
or servo-controlled for best precision and reliability.

Options

Extended belt for tag placer

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
