Pattern Expert Retrofit

Upgrade your palletizer

The new Pattern Expert upgrade includes exclusive Premier Tech designs for easy local and remote support.

Retrofit Main Benefits:

- ✓ Better efficiency
- ✓ Intuitive design
- ✓ User-friendly

Pattern Expert Upgrade

Increased Efficiency

The new palletizing pattern interface makes it easier for the operator to use and increases the efficiency of any pallet pattern modifications or creations.

Intuitive Design

The Pattern Expert retrofit is intuitive and visual, making pattern tuning and creation easy. Everything is done through a single entry point on the HMI.

User-Friendly

The retrofit has a very fast learning curve and makes it easy to do mixed loads. It is available in English, French and Spanish, all interchangeable at the touch of a button.
