

## RETROFIT • PTK Series

# Blower Replacement by Venturi Units

## Improve your bagging equipment

This new retrofit replaces the existing vacuum blowing system by the Venturi system.

### Retrofit Main Benefits:

- ✓ Reduced noise
- ✓ Improved vacuum performance
- ✓ Reduced maintenance

## Blower Replacement Upgrade

### Improved Performance

The blower replacement by Venturi units improves bag picking and bag opening as well as overall vacuum performance. It also reduces overall equipment noise.

### Better Design

This retrofit has new aspiration tubes that are more flexible compared to the original ones. It also has a new top opener and bottom opener with Venturi units and suction cups.

### Reduced Maintenance

The Venturi system is easier to clean than the existing vacuum blowing system and has a reduced maintenance time.
