

# Air Packer

Valve bag filler

# Air Packer

Valve bag filler

**UP TO 6 BPM\***

\*Up to 6 BPM per spout

## Affordability

Air Packer is a simple, rugged, economic machine.

## Usability

Simple in operations.

## Accuracy

It is a feature-rich machine offering excellent weight accuracy (50 gm at two sigma for many products).

**The Air Packer is designed to fill and weigh fine powders, flakes, pellets, and granules with a particle size of 3/8" or smaller.**

## Bulk materials

Fine powder

Flake

Pellet

Granular

## Bag types

Valve

## Bag materials

Paper

[REQUEST A QUOTE >](#)

## Typical Equipment Dimensions

### Bag capacity

10-50 kg

### Compressed air

1.5 ft<sup>3</sup> @ 80 psig per bag packed required

### Low pressure air

Up to 150 scfm @ up to 6 psig required

### Shipping weight

550 kg

### Filling tubes

Sized for 3-8" bag valves

### Dust collection requirements

400 scfm recommended

### Electrical requirements

415 V, 3ph, 50 hz

## Features

Low Maintenance – no moving parts in the product path

Easy Changeover – quick drop bottom for cleanout between runs

Small Profile – multiple machines can be banked together under one bin

Weight Controller – provides digital display for operator use

Atmospheric configuration for lowest machine cost

Plug-Stack configuration for handling abrasive products like sand

## Options

Stainless steel product contact parts

Low-pressure air fluidizes the product causing it to flow freely and more uniformly which results in greater accuracy

Inflatable Sealer – closes off the gap between the filling tube and the bag's valve to minimize dusting during fill

# Lifetime

## Client Solutions

**Premier Tech Client Solutions** take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
