

CHRONOS • LSH-1100-N

Stretch Hooder

CHRONOS • LSH-1100-N

Stretch Hooder

UP TO 100 LOADS PER HOUR*

Optimal protection

The Stretch Hooder efficiently covers loads from top to bottom in one stroke, ensuring optimal protection against water and weather conditions.

Ease of use

It requires little maintenance and is easy to operate. The mobile film-loading system eliminates the need for an elevated platform by lowering the film carriage to a safe working height.

Cost-effective

It adjusts to load heights for consistent and minimal film consumption. It can cover up to 2000 loads per roll depending on load and film characteristics, offering extended autonomy compared to other technologies.

The CHRONOS Stretch Hooder efficiently secures various load types, including mixed, uneven, short, tall, heavy, and light. It ensures load stability even when the hood is opened, making it ideal for maneuvering the load.

Applications

Containers

Bags

Boxes

Jugs

Big Bags

Trays

Barrels

Load types

Full bag pallet

Half box pallet

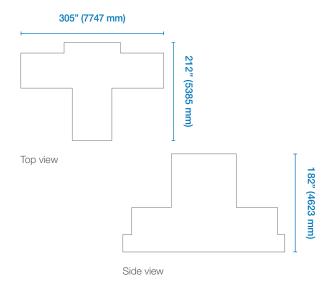

Jug pallet

Mixed load pallet

^{*}Depending on load height, film thickness, and other specifications

REQUEST A QUOTE >

Typical equipment dimensions

Stretch dimensions

Up to 56" L x 46" W short side leading (Long side leading option available)

Pallet load

Height: up to 10' (3050 mm) including pallet **Weight:** up to 4400 lb (heavy-duty option available)

Film thickness

3-5 mil (76-127 Microns)

Film roll diameter

Max 40" (1000 mm), 3 or 6 in. core

Operating pressure

85-110 PSI (6-7.6 bar)

Electrical requirements

480 V / 60 Hz

Ambient temperature

40 °F to 104 °F (5 °C to 40 °C)

Features

Secures various products and load sizes with film elasticity of up to 150%

Automatically detects load heights and centers pallets on the conveyor

Can accommodate multiple lines

Eliminates the need for top sheets and prevents loose film underneath the pallet

Allows using pre-printed film with your logo to increase brand visibility at your customers' sites

Low air and power consumption for reduced operational costs

Rugged construction with a compact footprint and low headroom design

Equipped with safety fences and interlocking doors

Complies with Category 3, Performance Level D safety standards

Options

Two-color continuous film printing (e.g., for a company name/logo)

Sleeving, banding, and double-hooding

Overheight compatibility to handle taller pallet loads

Pallet infeed and outfeed conveying systems

Client Solutions

Premier Tech Client Solutions take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
